

As an instructional designer, multimedia designer and web designer, my objective is to make a positive impact on clients and learners by using my skills and experience to design compelling and engaging courses. I will combine Merrill's first principles of instructions with Bloom's Taxonomy learning principles build active learning materials. Additionally I will use Cathy Moor's action mapping in second language acquisition in an on-line environment to create visually appealing and intellectually challenging courses for your business.

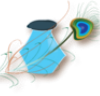

Objective

Proficiency

<u>Essentials</u>	<u>Art</u>	<u>Layout</u>	<u>Web</u>	<u>Media</u>	<u>Interactive Learning</u>	<u>CMS</u>
